TURF TIMBER

THE EDGE YOUR TURF NEEDS.

The Turf Timber isn't just another plastic border. It's a flexible, purpose-built solution designed for cleaner installs, quicker timelines, and fewer moving parts. Its smart design brings innovation to the edge of every project. The Turf Timber empowers faster installations and smarter budgeting, giving your team the flexibility to deliver more value on every job.

BUILT FOR REAL SAVINGS

Save up to 70% per linear foot compared to traditional concrete curbing.

FASTER INSTALLS

Designed for speed and simplicity to keep projects moving and timelines on track.

FLEXIBLE BY DESIGN

Installs above grade for natural drainage and adapts to nearly any layout or angle.

BUILT TO LAST

Heavy-duty, engineered to withstand the demands of playgrounds and public spaces.

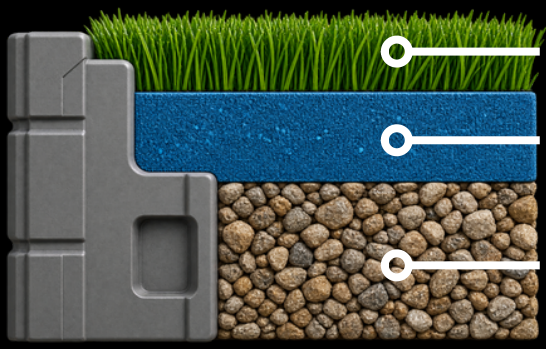
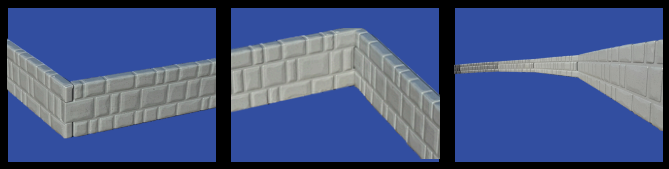
HOW IT WORKS



BUILT TO FIT

90° 270° EVERYTHING IN BETWEEN



ADA access ramps and filler end caps are available and sold separately.

ONE PRODUCT. MORE POSSIBILITIES.

Real-world problem solving for turf projects.

BUILD IN PHASES

Expand the playground later without being locked in by permanent concrete curbing.

REPAIR A FAILED EDGE

Replace failing rolled edges with a cleaner, more straightforward solution.

MAKE TURF FIT THE BUDGET

Savings on site prep can free up budget for more of the play space.

WORK WITH TOUGH SITES

Reduce excavation when rocky soil or challenging site conditions make traditional construction difficult.

SIMPLIFY MAINTENANCE

Upgrade from loose-fill surfacing to turf with a clean edge designed for long-term upkeep.

RECLAIM UNUSED SPACE

Bring unitary surfacing to areas that were previously muddy, difficult, or underused.
